

TOM BOARDMAN BIO

Tom Boardman, A.I.A., LEED AP BD+C, NCARB

Mr. Boardman is a project manager with LJB who has more than 25 years of experience with facilities projects. He excels in program management, project management and team coordination. Key duties include project scheduling, budgeting and quality management. He has managed design and construction projects in both design-build and design-bid-build methods. Mr. Boardman has a thorough understanding of the project development and delivery process and knows what it takes to successfully complete a project. He is also responsible for ensuring that owners receive what they pay for and projects meet program requirements. Mr. Boardman is a registered architect and a LEED accredited professional.

A.I.A. = American Institute of Architects

LEED AP Building Design + Construction (LEED AP BD+C)

Suits professionals with expertise in the design and construction phases of green buildings, serving the commercial, residential, education and healthcare sectors.

NCARB = National Council of Architectural Registration Boards
